

Managing the Golden Gate Corridor

- Regional Travel in the Corridor by Auto, Bicycle, Bus and Ferry all coordinated under one agency;
- If unhappy with the customer experience – there is only one person to call.

Travel in the Golden Gate Corridor

- Given the state of downtown SF offices, demand for Bridge, Bus and Ferry travel during ***Commute*** periods is way down.
- Today morning ***Commute Bridge Traffic*** (southbound 5:00-9:00 a.m.) is down over 25 percent.

The Drop in Commute Travel affects our Finances

Today - Revenues from Tolls & Transit Fares are down about \$900K each week, as compared to pre-pandemic.

Recreational & Tourist Travel Has Mostly Returned

Weekend Ferry Ridership is ***20 percent above*** pre-pandemic ridership.

New Customers

- Today, one third of our bus customers are new (post-pandemic) to our Bus service.

Thank You for Senate Bill 125
